

WULI AGRICULTURE MACHINE CO., LTD.

Professional Grade Power Sprayers, High-Pressure Pumps & Mist Cooling Systems

WH-0707 / WL-0707

ⓘ Accessories may vary from photo.

Portable Pressure Washer Cleaning Master

APPLICATIONS

- **Cleaning:** Optimum output for small cleaning jobs such as balconies, walls and floors.
- **Fertilization:** Spraying plants, vegetables or flowers.
- **Mobile Spraying:** Portable lightweight design can be carried easily between spraying locations.

FEATURES

- **Auto Pressure Release:** Automatically releases pressure from the pump after spraying stops. Saves power and energy.
- **Single Phase Induction Motor:** Durable with low noise and minimal pulsation.
- **Circuit Breaker:** Stops the motor if power supply voltage is outside of safety parameters.
- **Hardened Ceramic Plungers:** Provides long-term use and extends product life.
- **New Valve Assembly Design:** Combines inlet and outlet functions to increase efficiency.
- **Tri-Plunger Pump:** Steady flow with minimal pulsation.
- **Standard Accessories:** Spray gun with adjustable nozzle and high-pressure hose. Additional accessories available to suit special requirements.
